PEEL, PLAY & LEARN

These durable fabric educational PEEL & PLAY sets can work for younger children and older children alike. Whether you are homeschooling multiple aged children or looking for something to challenge kids in the classroom, our interactive wall play sets will fit in perfectly.

Because these sets are not vinyl or coated stickers, they will not rip or tear and can be cleaned and reused for years. They don't take up any room and can be reattached to the backing, rolled up and stored for next year's lessons!

The bright and colorful, fun graphics on our PEEL & PLAY educational sets make them perfect for visual learners. Tactile learners will love touching the pieces and moving them around from place to place. Our educational PEEL & PLAY sets can be combined with verbal instruction to satisfy auditory learners as well.

MADE IN THE USA
