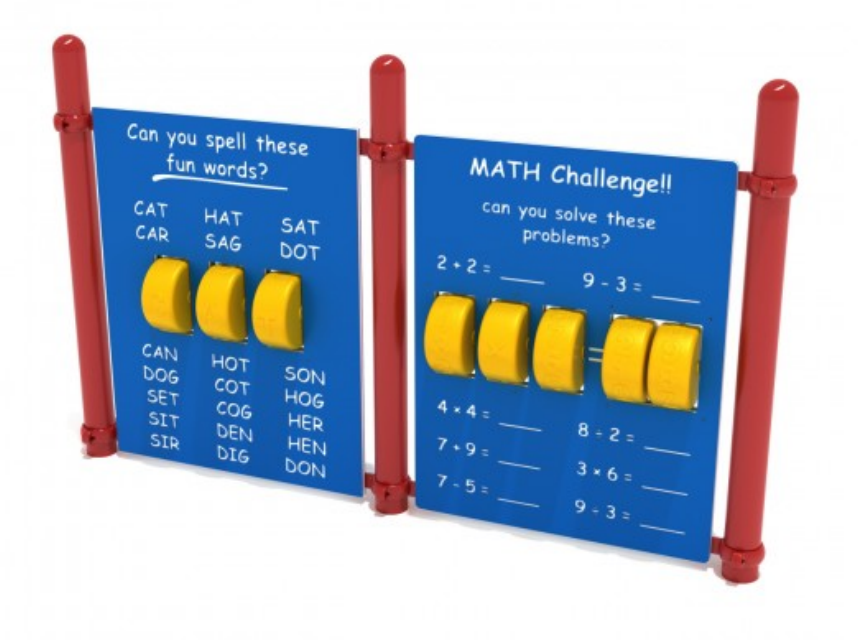
Learning Junction



Meets National Standards for: ✓ **ASTM** F1487-17 ✓ **CPSC** Guidelines #325

Product Description

With Learning Junction, mental growth doesn't have to stop at playtime. This two-in-one education station includes a Spelling Panel and a Math Panel. The panels have rotating cylinders, which can be turned to display a variety of different letters, numbers, and mathematical symbols. The spelling panel has three wheels that can display different letters to form simple three letter words. A surprising number of words can be made. Some of the possibilities are printed around the letter wheels, so that kids can start by spelling those words before coming up with more. The Math Panel works in a similar way, where children can 'spell' out simple mathematical expressions by rotating the five wheels. Some sample problems are listed on the panel itself to get them started. The ingenious thing about this panel is that young children can copy and solve the problems from the board, while more advanced children can challenge themselves by spinning the wheels randomly and trying to solve whatever problem comes up. This panel can even help to prepare them for algebra, since it involves mak...

Product Specifications

Model Number: PFS041
Age Range: 2-12 years
Post Diameter: 3.5-inch
Product Type: Panels
Safety Zone: None required
